

PX2-MP-IR

PixiePro™ Modular Panel

Complete customizable AV control made simple.

FEATURES

The PixiePro Modular Panel (PX2-MP-IR) is a customizable AV control interface. It stands alone as an IR-learning control system based on SP Controls' proven Pixie™ technology. Or, in conjunction with other PixiePro products, it serves as an elegant interface to the next-generation of managed AV room solutions. Either way, the PixiePro Modular Panel is easy to configure, customize, and use.

AMBIENT LIGHT ADJUSTMENT SENSOR senses room lighting and adjusts LED backlighting to compensate for light level.

ROBUST IR LEARNING with 16 macros or round-robin commands per button.

SECURITY ENABLE/DISABLE FEATURE allows the panel to be configured with a security entrance code to prevent unauthorized use.

CONFIGURABLE INACTIVITY SHUTDOWN TIMER will shut off display device from fifteen minutes up to eight and a half hours after last keypress. Other timers allow warm-up, cool-down, and a mandatory wait period between security code entry.

**Simple.
Intuitive.
